About Us

Consolidated Facility Services Inc. (CFS) was founded in 2004 by Patrick Walker. Today, the company provides full turnkey services for small commercial properties as well as commercial construction, janitorial, and maintenance for retail, medical, industrial, commercial, and institutional clients. CFS has one main priority - for the company to function as a single source for their client's facility's needs, operating 24 hours a day, 7 days a week.

CFS' renovation and developmental construction services provide clients with a single source service provider that can build, repair, and clean/maintain their facilities. Their general contracting division provides tenant build-outs and renovations, specializing in condominium remodeling. No matter what or where the job, CFS can build, maintain, and restore it--and its repeat clients are proof that the company consistently meets this promise.

CFS can build, maintain, and restore your facility

**Full-Service Demolition
and Additions**

**Carpentry, Flooring,
Fixtures**

**Electrical, Plumbing,
HVAC**

Painting and Remodeling

Why CFS Construction?

1 Proven Services

Going above and beyond what was required of CFS is what sets them apart; and it speaks to why the company was founded - with a commitment to integrity and providing high quality service to all clients.

CFS boasts a repeat clientele of 70%. One such client is Hartsfield-Jackson Atlanta International Airport. CFS has provided a level of service above and beyond what they needed on numerous construction remodeling projects.

2 Quality Results

CFS is committed to finding the better solution and ensuring that it is delivered in the most efficient, cost-effective manner.

We are committed to providing projects in a seamless and non-disruptive manner. Our management team oversees each assignment personally - and will be available from start to finish throughout the project. Offering our clients this individual, single-source attention has been the reason for our continued success.

3 Minority Business

CFS is a minority-owned and operated business. We work closely with diversity managers, prime contractors, and other minority firms in an effort to achieve minority/diversity requirements.

Certifications include:

- City of Atlanta MBE
- MBE with Georgia Minority Supplier Development Council
- SDB with Georgia Department of Administrative Service
- DBE with Georgia Department of Transportation
- 8A Certified
